# Smart Box

Quick start guide

# 1. What's in the box

Smart Box (incl. Mount)

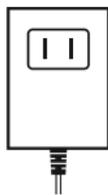

Backside (Box)

Remote control

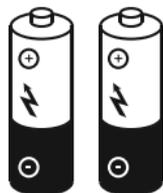

HDMI

Charger

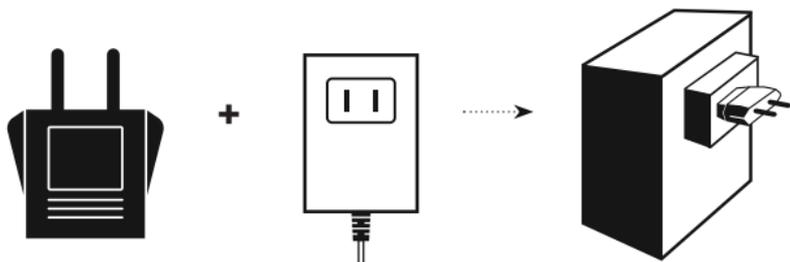

Adapterplug

Batteries

## 2. Let's set it up

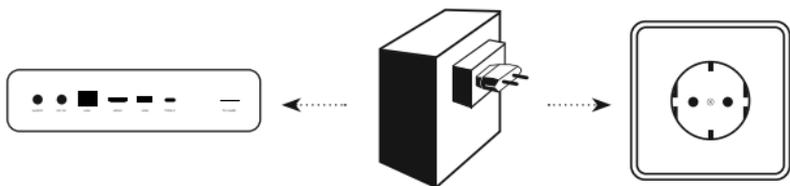

### Step 1

Attach the adapterplug to the charger

---

### Step 2

Plug the power cable into the Smart Box and into the power outlet

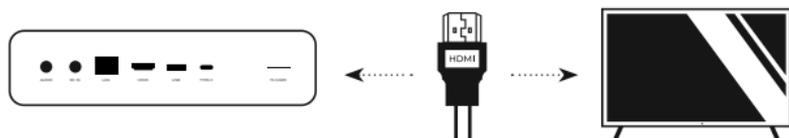

### Step 3

Place the Smart Box on or near the TV  
Preferably between 60-180 cm height (ideal: 80-120 cm)

---

### Step 4

Plug the HDMI cable into the box and TV

### 3. Let's get connected

#### Wi-Fi connect

To connect to WiFi you have two options:

##### **Option 1: QR code connection**

Use your phone to generate a QR code online and connect to wifi.

Show a Wi-Fi QR code to the camera

**Android:** On your Android phone, through the current Wi-Fi connection, you can generate a QR code

---

**iPhone:** For iPhone, you can generate a free QR code online

---

Go to [www.qr-code-generator.com](http://www.qr-code-generator.com) on your phone and choose Wi-Fi

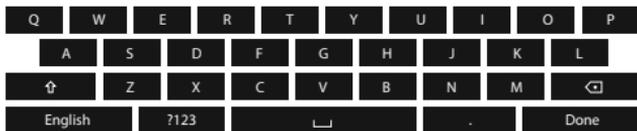

---

Enter your network and password and you will receive a QR code

## Option 2: Remote connection

Use the remote to navigate to the WiFi network selection screen on the TV.

Enter Network Name...

Enter Password...

Enter the network name and password through the digital keyboard overlay. Press 'confirm' when the details are filled in.

## 4. Congrats, let's get started

You did it!

You can get started with all of our fun on demand work outs, campaigns and of course the exergames.

Was the installation unsuccessful?
